PRICES ADVANCE ON SMALL DEMAND

No Signs of Selling Out of Collateral Loans, and Holders Not Anxious to Sell Stocks.

CALL MONEY GROWS EASIER

This Due in Large Measure to the Small Demand for Loans at Stock Exchange.

NEW YORK, November 26 .- There were none of the signs of selling out of collateral loans in to-day's stock market, such as has been the depressinfluence at intervals for some time t. Free from this influence the past. Free from this influence the scarcity of the market supply of stocks again became manifest and prices ad-vanced easily on a small demand. ing, but there was a fairly good undertone at the close.

Members of the New York Cotton Exchange catimate the crop at figures ranging from 10,750,090 to 11,200,090 bules, the average being 11,713,000 bules, which would tend to show that the local trade is looking for a crop under 12,900,000 bules. The avance during the middle senson was probably helped by the light interior movement, which would suggest firmness on the part of holders.

Receipts at the ports to-day, 57,025 bules, around 58,216 last week and 78,518 last year. For the week, 350,600 bules, against 31,535 hat week and 49,138 last year. For the week, 350,600 bules, against 31,536 bules, against 15,545 last year.

scarcity of the market supply of stocks again became manifest and prices advanced easily on a small demand. The advance in prices did not bring out increased offerings, but the scanty demand became even lighter, leaving the market in a condition of extreme duliness in some of the later stages. A feature of the day was the growing easy of the call money market, largely due to the small demand for loans at the Stock Exchange. The interest and dividend payments for December still show aggregate far in excess of previous years, arguing the continued high rate of the distribution of profits. The case of the call clean market did not bring corresponding increase in the demand for commercial paper, for which there is yet practically no market. The refusal to take commercial paper by the small interior banks is charged by the New York dealers to be an accompaniment of a piling up of cash holdings to the point of surfeit. The day's most important development was the favorable light thrown on the affairs of a Western banking institution, which has been the subject of suspicion in the recent past, but which is now understeed to be insured combined protection by pledged entered of the banks of several of the	I. STEAMERS WEATHER GALE.

BOSTON. MASS. November 26.—Two battered constwise steamers arrived in port to-day, the Chattahoochee from Savannah, and the Ontario from Baittmore and Norfolk, both having been caught south of Long Island in the northeast storm of Sunday night. The Chattahoochee had several stanchlons broken, some deck fittings were carried away, and stateroom doors and skylights were smashed.

The Ontario's cargo of various merchandise shifted, and she came into port with a list to starboard.
